ADRIA®

'87

For 1987, our sixteenth continuous year in the U. K., we are proud to present our comprehensive range of new models. From our lighter weight, budget priced TOURA to our palatial MAXIMA we feel that the caravan you are looking for, whatever the price or size, is available from our extensive lineup for 1987. Browse through this brochure, study the specifications and you will see that we offer a lot of caravan for your money.

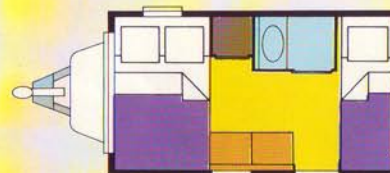

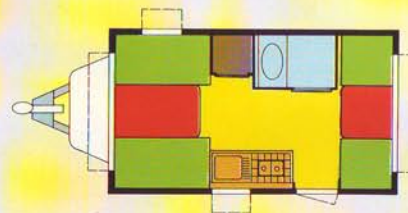

TOURA

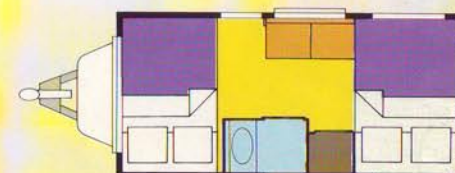

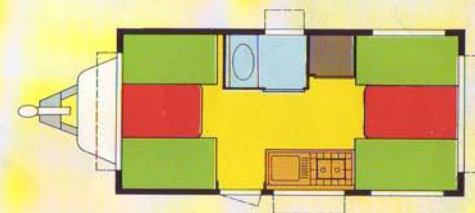

These two budget priced, lighter weight models have been produced for the U. K. market following the success of the 1986 touring model, which showed a demand for a double glazed lighter weight caravan for the first time buyer. They share the same body shape as the higher specification models in the 1987 range made in sandwich construction. The chassis has independent suspension with metal torsion bars and hydraulic shock absorbers. All the external mouldings are in black anodised aluminium. Both models are double glazed and have a lockable gas locker.

TOURA 410

Body size 14'1" x 6'10"
Berth 4

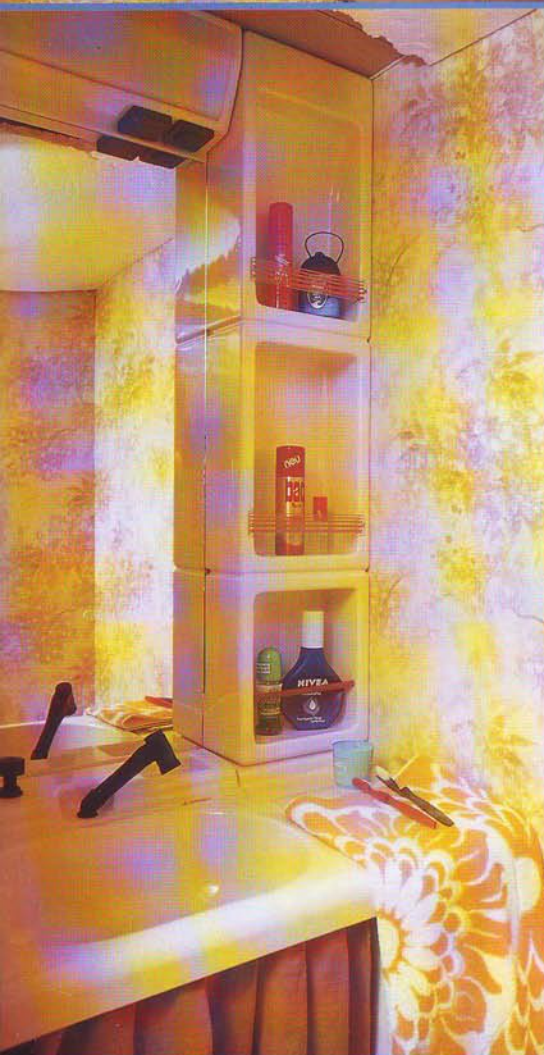

OPTIMA

An update on the well proven value for money comfort range. Still with the same high standard of equipment, the range now includes an entirely new version of the ever popular 6 berth 500 model. The aerodynamic sandwich construction body is mounted on a chassis with independent suspension, hydraulic shock absorbers and an automatic reversing facility. All the double glazed windows are fully opening. All models are complete with lockable gas locker, mains electrics, refrigerator, flued heater and eye level grill. Ideal for all seasons.

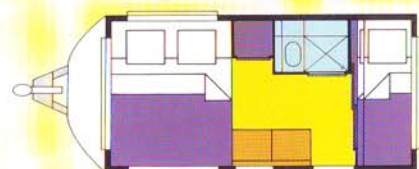

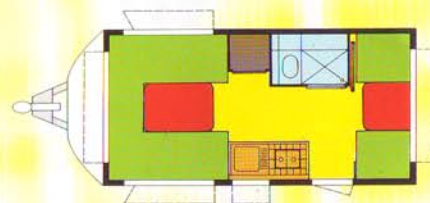

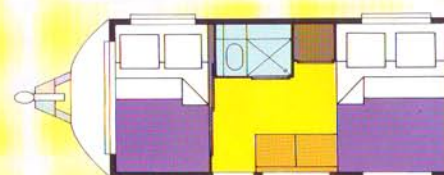

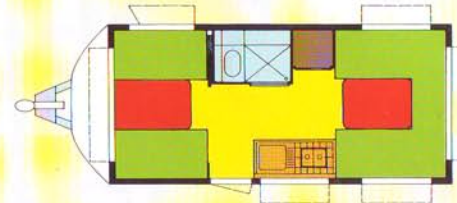

OPTIMA 400

Berth 4

OPTIMA 440

Body size 14'4" x 6'10"
Berth 4

OPTIMA 500

Body size 16'6" x 7'6"
Berth 6

SUPRA

The fully equipped top of the range, the supra epitomises our claim that we produce the most complete caravan for it's price. The aerodynamic sandwich construction body is the same shape and styling as the previous models, but with a higher level of insulation. It has the same high level of equipment as the optima and in addition has a built in 40 litre water tank and shower tray. The flued heater also has an adjustable blown air facility.

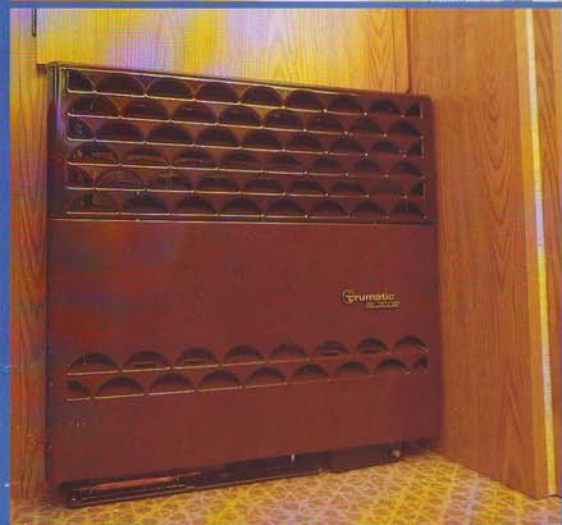

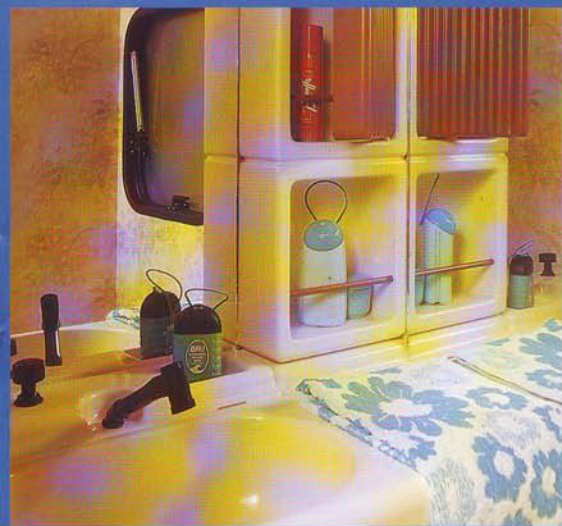

Complete with ski locker, stylish wheel embellishers and handsome faired — in lockable gas locker.

The 530 is a twin axle model.

Berth 4

SUPRA 530

Body size 17'6" x 7'6"
Berth 4/5

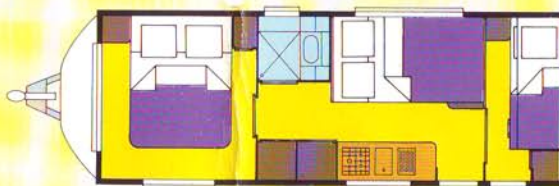

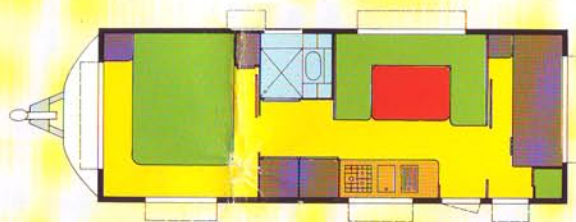

MAXIMA

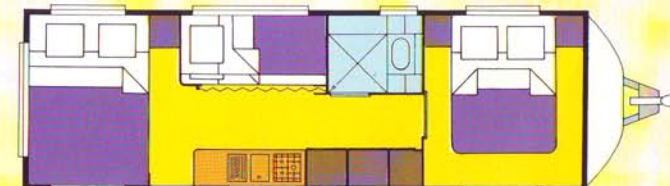

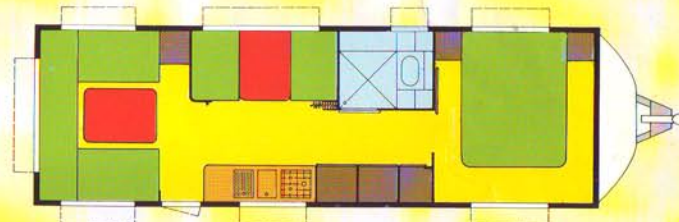

For the larger family, or for the family who may just want more space, the maxima is available with the same high level of equipment as the other ranges together with the renowned optimus central heating and domestic hot water system. Both models are double axle.

MAXIMA 640

Body size 21'0" x 7'7"
Berth 5/6

MAXIMA 740

Body size 24'4" x 7'7"
Berth 6

* Please note that, although equipped with brakes and roadlights, the 740 is not legally towable on roads within the U.K. as it is over 7 metres in length.
